

Submission of Dental Insurance and Claims

St. Louis Smile Salon will submit claims on your behalf as a courtesy. St. Louis Smile Salon does not assume the rights or responsibility for your insurance or your insurance claims in the event your insurance provider does not pay some of your claim, or your entire claim. Insurance providers will not guarantee any payment of any claim until it has been submitted and reviewed by their office after any dental exams, x-rays, cleanings, or procedures have been completed by our doctor and staff. Your insurance policy and provisions are your responsibility to know and understand. The information given to our office by your insurance provider is a limited eligibility report and does not provide any provisions you may have in your policy.

All copays and estimated patient costs toward dental treatment are due at the time of service. If treatment is done on a child or minor the patient's parent or legal guardian is responsible for the copays or estimated patient costs at that time of service.

After your insurance company has responded to your claim by either paying or denying, you will be billed for any remaining balance of the services that were provided to you by our doctor and staff.

By signing below you understand that St. Louis Smile Salon does not assume responsibility for your insurance. All procedures provided by our office will be your responsibility to pay in full in the event your insurance carrier does not pay on your claims. You also understand that you will be billed for the amount not paid by your insurance company and if the remaining payment is not paid it will be sent to third party collection after 90 days.

Patient Name: _____
